Vision & Mission

Vision to be a global beacon of transformative education that nurtures spiritually awakened, globally conscious leaders dedicated to building a peaceful, compassionate and just world for all.

Mission to empower youth and educators through values-based, spiritual education focused on inner growth, global citizenship, peacebuilding, and leadership — aligned with SDG 4.7 — to co-create a united and sustainable world by 2035.

Transforming the World through Education

Shishir Leadership Academy (SLA) is a transformative educational movement dedicated to empowering youth and educators with the vision of nurturing spiritually grounded, globally conscious leaders who will shape a peaceful, just and sustainable world. Rooted in the core values of humility, service and unity, the academy offers dynamic and value-driven courses in Global Citizenship Education (GCED), the Sustainable Development Goals (SDGs), Peacebuilding, Inner Leadership and Human Rights designed for students, teachers and educational institutions.

Shaping Youth for Global Leadership

Aligned with UNESCO's GCED goals and SDG 4.7, the academy equips young learners to become compassionate change makers who think globally, act locally and lead with purpose and empathy. Signature programs such as Speak Peace, Lead Peace, The Power Within and I Stand for Justice build emotional intelligence, moral clarity and civic engagement in youth.

Empowering Educators to Lead with Purpose

For educators, Shishir Leadership Academy provides expert training in peace pedagogy and values-based instruction, while schools benefit from scalable, affordable learning frameworks — including the pioneering GCED Curriculum for Classes 6–12.

"Since wars begin in the minds of men, it is in the minds of men that the defences of peace must be constructed." - UNESCO

About the Founder

Dr. Shishir K. Srivastava is a globally respected peace educator, visionary and advocate of value-based education. As the former Head of international relations at City Montessori School (CMS) — the world's largest school — he has championed character-building, peace and global citizenship for our two decades. As the Founder of Shishir Leadership Academy, he is empowering youth and educators through transformative courses in Global Citizenship Education GCED / the SDGs Peacebuilding, Inner Leadership and Human Rights. His efforts are closely aligned with UNESCO's GCED goals and SDG 4.7, and are deeply rooted in Gandhian values of nonviolence, humility and universal brotherhood.

A strong believer in global unity, peace, spiritual leadership and inner transformation, Dr. Srivastava has represented India at numerous global education and peace forums. Through Shishir Leadership Academy, he is building a worldwide network of young peacebuilders, with the goal of shaping a just, united and compassionate world by 2035.
